

How collects.io pricing compares

Released 24 September 2026 · Competitor prices as published on each vendor's website, read 23 September 2026

Only collects.io charges a flat fee per invoice it collects.

Of the six competitor price pages read on 23 September 2026, none charges a fixed £ per invoice that is paid after the vendor acted on it. The closest is Adfin's Enhanced Credit Control at 0.3% of each paid invoice — a percentage of value, not a flat fee.

Vendor	What you pay for	Price as published	Fee per invoice collected?
collects.io	One platform fee set by annual invoice volume, read from Xero. Visibility = the platform fee. Collect = platform fee + a fee per invoice we collect	Platform fee from £9 a month (up to 150 invoices a year) to £6,749 a month (27,001+). Collect adds £3.25 down to £2.25 per invoice collected. No minimum fee. Ex VAT	Yes — flat £, only on invoices we collect
Chaser	Subscription banded on annual revenue	Compact £179–£259/mo; Core £539–£779/mo; Complete £809–£1,169/mo	No
Paidnice	Subscription banded on invoices monitored per month	Essentials \$69 (£49)/mo up to 150; Pro £74–£599/mo for 300–4,000	No
Kolleno	Per user per month	\$650/user/mo (\$545 annual); Business Plus \$1,245/user/mo (\$995 annual)	No
Upflow	Quote, banded on invoiced revenue and invoice count	Quote only	No
Satago	Flat subscription	£45 / £80 / £200 a month	No
Adfin	Free reminders; paid payments and enhanced credit control	Payments 20p + 1%; Enhanced Credit Control 0.3% per paid invoice	Partly — % of value

What that means for you

- **Aligned with your cash.** You pay per invoice only on the invoices we collect. No collection, no per-invoice fee.
- **Not a tax on growth.** Priced on your invoice volume, read from your own Xero ledger — never a percentage of turnover or of what we collect.
- **See it first.** Two weeks of Visibility free, with 29 analytics on your receivables — 19 of them not available in Xero.
