collects.io is an accounts receivable platform for UK businesses on Xero. It finds why each invoice is unpaid, resolves it and collects it.

1. Two plans

- **Visibility** — every dashboard and analytic, with our AI working through your ledger in the background. Nothing is sent to your customers — your team keeps the collecting. First two weeks free.
- **Collect** — the engine acts: we find why each invoice is unpaid, resolve it and collect it. One-click upgrade from Visibility, at any time.
- **Commitment** — both plans carry a minimum 12-month commitment, starting on day 15 — the first paid day. Moving up to Collect starts a new 12-month commitment from the day you upgrade. Annual = twelve monthly payments.
- **Getting started** — card verified at Xero connect with a £1 charge, which is refunded. On day 14 the account moves to paid Visibility, with notice; you can upgrade to Collect or switch off before then.

2. Platform fee — both plans, set by your annual invoice volume

Read from your Xero ledger when you connect — the real number, not an estimate. Visibility is the platform fee on its own.

Invoices / year	£ / month	£ / year

27,001+	£6,749	£80,988

3. Collect — the platform fee plus a fee per invoice we collect

Collect £/yr = platform fee + per-invoice fee, charged only on invoices we collect. Marginal tiers: each rate applies only to the invoices within its band.

Invoices we collect in a year	£ each
First 500	£3.25
501–3,000	£3.00
3,001–10,500	£2.75
10,501–28,000	£2.50
Above 28,000	£2.25

4. What it costs — worked examples

Example	Invoices / yr	First two weeks	Visibility / yr	Collect / yr
£4m agency	300	£0	£768	£1,743
£5m services	1,000	£0	£1,908	£5,033
£10m contractor	2,000	£0	£4,788	£10,913
£12.5m producer	3,670	£0	£7,788	£18,755.50
£50m group	10,000	£0	£19,428	£47,803

e.g. £4m agency: £768 platform fee + 300 × £3.25 = £1,743. £12.5m producer: £7,788 + (500 × £3.25 + 2,500 × £3.00 + 670 × £2.75 = £10,967.50) = £18,755.50. Excluding VAT.

5. Discounts and terms
