

Referrer programme — terms at a glance

Released 24 September 2026 · Summary of the Collect Solutions Referrer Agreement (23 July 2026). The Referrer Agreement governs.

Introduce a business to collects.io. When it signs, you earn one month of what it pays us. No liability, no selling, no billing.

How it works

Term	What it means
Appointment	Non-exclusive. You introduce; Collect Solutions contracts with, prices and bills the customer.
How an introduction counts	The business registers your Referrer's Code on the platform, or we confirm the introduction to you in writing.
Window	The business must sign within three months of the introduction.
Commission	100% of the first month's net income from that customer — one-twelfth of its first-year payments, excluding VAT. One payout; nothing on renewals.
Conditions	The customer signs a subscription of at least 12 months with no right to cancel for convenience (every collects.io plan carries a minimum 12-month commitment), does not terminate in its first three months, and has paid in cleared funds. Founder-offer customers have a cancellation window, so they do not qualify.
When paid	Within 30 days of the end of the customer's first three months, or 30 days from your invoice against our monthly statement.
Statements	Monthly, within 10 business days of month end.
Your side	No liability for the customer. You do not negotiate price or terms, do not introduce competing accounts receivable products during the agreement, and use our name and materials only with our consent.
Term	12 months, renewing automatically; three months' notice to end at a renewal date.

What one introduction earns — one month at list price, excluding VAT

Customer	Customer pays / yr (ex VAT)	Your commission
Visibility — 300 invoices a year	£768	£64
Visibility — 1,000 invoices a year	£1,908	£159
Visibility — 2,000 invoices a year	£4,788	£399
Visibility — 3,670 invoices a year	£7,788	£649
Visibility — 10,000 invoices a year	£19,428	£1,619
Collect — £4m agency	£1,743	£145.25
Collect — £5m services	£5,033	£419.42
Collect — £10m contractor	£10,913	£909.42
Collect — £12.5m producer	£18,755.50	£1,562.96
Collect — £50m group	£47,803	£3,983.58

Illustrative, at list price from the collects.io price list released 24 September 2026. Commission is calculated on what the customer actually pays in its first year: an annual-prepayment discount, or a different number of invoices collected, changes the figure.
